

We inform you that on Tuesday 28th of February the reservation platform for DRE RACETRACK and DRE SAFETY 2017 courses will open.

## **2017 News**

### DRE Safety

Thanks to the DRE Safety you can acquire all the knowledge and practical preparation needed for safe road riding, counting on a structure that was particularly set up for this purpose, the Automotive Safety Centre in Vairano.

### DRE Racetrack

The DRE was born on the track and so it is here that it continues to offer a very important part of the “experience”, thanks to four courses subdivided according to the ability and needs of participants. All of this at international racetracks, riding the most beautiful and high-performance bikes in the Ducati Superbike family.

### DRE Enduro

The course is suitable for all, from beginners who want to gain confidence and control of the bike in conditions with low grip, to the more experienced enduro rider who wants to learn from the experience of top riders and try out riding techniques with the new Multistrada 1200 Enduro. Located at the heart of the Chianti Rufina area 30 km north-east of Florence, the prestigious castle of Nipozzano and all the surrounding terrain which covers over 600 hectares, make a perfect location for this exclusive Ducati experience.
